

SRA TIMBER MANAGEMENT POLICY

1. No tree larger than 3" diameter breast height shall be removed from Authority property without authorization.
2. Dead, diseased, or dying trees may be cut and removed from Authority property only with proper authorization.
3. All unauthorized cutting, removing or damaging of timber shall be reported to the Division Manager for appropriate action.
4. Any Management Program or necessary harvest of Authority timber shall be approved by Board action.
5. Any and all unauthorized removal of timber over \$1,500 in value shall be reported to the General Manager for appropriate action.
6. The Authority promotes and encourages conservation of all soils against destructive erosion, and where warranted, may re-plant any trees cut, to sustain erosion protection.
7. The Authority shall protect, promote and conserve hardwood bottomlands within Authority projects in the interest of conservation and for potential mitigation purposes.
8. Periodic inspection of SRA timberlands will be conducted using aerial, land and water approaches.
